

Four times the proportion of students with chronic truancy (10+ days unauthorised absence in at least 1 school term):

- 46.3% of students in care with a substantiated notification to the state child protection authority
- 10.7% of students with no involvement in the care system.

Twice as many days absent in a term, on average:

- 7 days for students in care with a substantiated notification to the state child protection authority
- 3.4 days for students with no involvement in the care system.

Almost four times the proportion of students who were suspended:

- 23% of students in care
- 6% across all students
