

To our loyal customers,

We would like to keep you all informed about our upcoming State Election. Nick Xenophon has just released his concerning "anti-pub" policy, this is targeting **pubs only**, the Casino, Clubs and online gambling services are exempt.

If Nick Xenophon through his SA Best Party achieves a position of power in S.A it will be the end of Pub's as we know them. Potentially leading to the closure of a large number of venues forced by unsustainable financial pressure caused by Nick Xenophon's policy. With that, a majority of Pub employees (over 26,000 in S.A!) will likely lose their jobs.

The negative impact will be felt State wide by other industries including builders and trades, farmers and winemakers, to mention just a few who so heavily rely on our industry.

It's not all doom and gloom though, South Australian Pubs are so important to our State that both major parties (Liberal and Labour) have committed to continue to support our industry into the future.

To help get behind this campaign to save Pub's in S.A please preference S.A Best **last** and support either of the major parties on election day.

If you are concerned about Nick Xenophon and want to know the facts check out [www.nowaynick.com.au](http://www.nowaynick.com.au). Also, please look out for the T.V adverts and radio campaigns.

We are, as always grateful for your support.

Sincerely

The McCallum Family
