1. Background and Objectives

- Dying with Dignity Victoria (formally the Voluntary Euthanasia Society of Victoria Inc) is an organisation promoting legislation of freedom of choice and human rights with regard to dignity at the end of life. NEWS POLL has conducted a study to examine a couple of areas on this topic.

- The objective of the research was to examine :
 - public opinion on a lethal dose being provided by doctors
 - respondents personal experience of voluntary euthanasia
 - respondents having a “living will” or Advance Healthcare Directive
 - and religion of respondents

2. Methodology

Sample

- Conducted nationally among 2423 respondents aged 18 years and over.
- Respondents were selected by means of a stratified random sample process which included:
 - a quota set for each capital city and non-capital city area. Within each of these areas a quota set for each telephone area code;
 - random selection of household telephone numbers drawn from current telephone listings for each area code;
 - random selection of an individual in each household by a "last birthday" screening question.

Interviewing

- Conducted by telephone over the periods of 2 - 4 February and 16 - 18 February 2007, by fully trained and personally briefed interviewers.
- To ensure the sample included those people who tend to spend a lot of time away from home, a system of call backs and appointments was incorporated.

Weighting

- To reflect the population distribution, results were post-weighted to Australian Bureau of Statistics data on age, highest level of schooling completed, sex and area.

3. Summary of key findings

3. Summary of key findings

- Eighty percent of respondents nationally thought that doctors should be allowed to provide a lethal dose to a patient experiencing unrelievable suffering and with no hope of recovery.
- Support was higher in regional and rural Australia (82%) than in capital cities (78%). Of the capital cities, support was highest in Perth (85%) and lowest in Sydney (73%)
- People who claim to have a religion still strongly support the right of doctors to provide a lethal dose (74%), however people who claim to have no religion are even more likely to support this view (91%)
- Twenty two percent of respondents nationally have had a personal experience of a close relative or friend being hopelessly ill and wanting voluntary euthanasia
- Seven percent of respondents nationally claim to have a “living will”.

4. Research Findings

4.1 Should doctors be allowed to provide a lethal dose

Q1. Thinking now about voluntary euthanasia (**PRON: YOUTH-AN-ASIA**). If a hopelessly ill patient, experiencing **unrelievable** suffering, with absolutely **no** chance of recovering asks for a lethal dose, should a doctor be allowed to provide a lethal dose, or not?

		VICTORIA		NEW SOUTH WALES		QUEENS- LAND		SOUTH AUSTRALIA		WESTERN AUSTRALIA		
	TOTAL (2,423) %	MELB (408) %	REST VIC (200) %	SYD (402) %	REST NSW (303) %	BRIS (200) %	REST QLD (204) %	ADEL (200) %	REST SA (101) %	Perth (202) %	REST WA (101) %	TAS (102) %
Yes, doctor should be allowed to give a lethal dose	80	80	87	73	79	82	80	80	84	85	85	86
No, doctor should not be allowed to give a lethal dose	14	14	10	19	13	14	12	14	12	9	10	11
Can't say	6	6	3	8	8	4	8	6	4	6	5	3

Eighty percent of respondents nationally felt that doctors should be allowed to give a hopelessly ill patient a lethal dose. Within the 65+ age group, 72 percent of respondents felt that doctors should be allowed to give a lethal dose. This was the lowest level of agreement amongst all the age groups. The greatest support was given by those aged 35-49 with almost 85 percent agreeing that a doctor should be allowed to provide a lethal dose to a hopelessly ill patient.

It is evident that religion does play a role in people's beliefs in relation to voluntary euthanasia. Of those respondents who claim to belong to a religion, 74 percent, agree that a doctor should be allowed to provide a lethal dose. This compares to a figure of 91 percent among respondents with no religion.

4.2 Experience of close friend or relative wanting euthanasia

Q.2 *Have you yourself had personal experience where a close relative or friend was hopelessly ill and wanted voluntary euthanasia?*

	TOTAL (2,423) %	18-24 (178) %	25-34 (284) %	35-49 (669) %	50-64 (749) %	65+ (543) %
Yes, personal experience	22	17	18	23	27	20
No, personal experience	77	82	82	76	71	78
Don't know / refused	1	1	0	1	2	2

Almost 1 in 4 respondents (22%) had had a close friend or relative who was hopelessly ill and wanted voluntary euthanasia. This personal experience will clearly influence people's attitudes towards voluntary euthanasia, as evidenced by the results below.

	TOTAL (2,423) %	Yes, had personal experience with someone wanting voluntary euthanasia (549) %	No, personal experience with someone wanting voluntary euthanasia (1848) %
Yes, doctor should be allowed to give a lethal dose	80	90	77
No, doctor should not be allowed to give a lethal dose	14	8	16
Can't say	6	2	7

Those who have had a personal experience with a close friend or relative who was hopelessly ill and wanted voluntary euthanasia, are more inclined to feel that a doctor should be allowed to provide a lethal dose (90 percent) compared to those who have not had a personal experience (77 percent) .

4.3 Do you have a living will

Q3. A “living will” allows a person to specify **in advance**, which medical treatments they would refuse or accept in the case of serious medical conditions should they become **unable** to specify their own wishes. It is sometimes called an Advance Healthcare Directive. Do you have one of these living wills?

		VICTORIA		NEW SOUTH WALES		QUEENSLAND		SOUTH AUSTRALIA		WESTERN AUSTRALIA		TASMANIA
	TOTAL (2423) %	MELB (408) %	REST VIC (200) %	Sydney (402) %	REST NSW (303) %	BRIS (200) %	REST QLD (204) %	ADEL (200) %	REST SA (101) %	PERTH (202) %	REST WA (101) %	TAS (102) %
Yes	7	7	8	5	8	10	9	10	6	5	5	2
No	92	92	91	94	91	89	90	90	98	95	95	98
Don't know	1	1	1	1	1	1	1	0	2	0	0	0

A majority of respondents (92%) do not currently have a “living will” or Advance Healthcare Directive.

Interesting to note, more respondents (10%) in Adelaide have a “living will” compared to Sydney respondents (5%), this is significant at the 90% confidence level.

The highest percentage of respondents who have a “living will” were aged 65 years and over (12%). There is a statistically significant difference between the 65 years and over age group and the younger age groups (18-24 years and 25-34 years), inferring that the older age group are more likely to have a “living will” than the younger age groups.

4.4 Analysing attitudes by religious belief

Q4. The next question may be considered a little sensitive to some, but we would appreciate your co-operation. What is your own religion, or do you not have a religion?

	TOTAL (2423) %	Total Christian (1433) %	Total Non Christian (53) %	Total Religious (1598) %	No Religion (784) %
Q1. Lethal dose provided by Doctor					
Yes	80	75	58	74	91
No	14	18	24	18	5
Don't know	6	7	18	8	4
Q2. Personal experience of friend/relative wanting voluntary euthanasia					
Yes	22	21	21	20	24
No	77	78	79	78	75
Don't know	1	1	0	2	1
Q3. Currently have a "Living will"					
Yes	7	7	8	7	7
No	92	92	90	92	92
Don't know	1	1	2	1	1

The results suggest that there is no difference in the likelihood of respondents having a "living will" based on their religious beliefs. For example respondents who are Christian, Non-Christian, religious or non religious are all equally unlikely to have a "living will", (90-92%).

5. Questionnaire

SECTION J- ASK ALL RESPONDENTS

J1	The next couple of questions are of a sensitive nature but your honest answers are important to us. Thinking now about voluntary euthanasia (PRON: YOUTH-AN-ASIA). Computer Tables

Base and filters

- BASE - 'Weighted respondents' (WTD RESP) - the total number of completed interviews weighted to reflect the latest Australian Bureau of Statistics population estimates. Expressed in thousands (000's).
- FILTERS - Screen the questionnaires so that only certain types of respondents will be represented in the table.

Analysis panel

- Comprises demographic or other discriminators, sub-divided into standard groups.
 - 1 SEX - Male, Female
 - 2 AGE - 18-24 years, 25-34 years, 35-49 years, 50+ years
 - 3 GROCERY BUYER - Whether the respondent is the person in the household most responsible for doing the weekly grocery shopping
Yes, No
 - 4 CHILDREN - Whether there are children under the age of 18 currently living in the household.
Yes, No
 - 5 MARITAL STATUS
Married - married, defacto or living together
Not married - never married, divorced, separated or widowed

Computer Tables (cont'd)

6 WORK STATUS - Whether the respondent is in paid employment:
Full time, Part time, Not at all

7 AREA - the Statistical divisions of Sydney and Melbourne as defined by the Australian Bureau of Statistics

8 SOCIO ECONOMIC STATUS (SES) - Based on the occupation of the main income earner of the household, using the ABS ASCO statistical classification. Subdivided into:

White collar - professional, para-professional, manager, administrator, clerk, salesperson or other white collar worker.

Blue collar - tradesperson, plant and machine operator, labourer, retired with previous occupation unknown, other blue collar workers, student, home duties or unemployed.

9 SCHOOLING COMPLETED - Year 10 or below, Year 11 or 12

10 HOUSEHOLD INCOME - Household's combined annual income from all sources before tax (for respondents specifying household income)

Less than \$30,000, \$30,000 - \$69,999, \$70,000+

Respondents and weighted respondents

- **RESPONDENTS** - The total number of completed interviews before weighting has been applied. The figure directly below the 'Total' is the number of respondents included in that table. The number of respondents included in any particular column appears at the top of the column.
- **WTD RESP (000's)** - The population estimates represented by the respondents, expressed in thousands. The percentages in the main body of the table are based on these weighted figures.

Questions

- Down the left side of the page is a question description and response frame.

Computer Tables (cont'd)

Totals

- Column totals appear across the bottom of the table. These will be greater than 100 percent if there have been multiple responses by individuals.

FORMAT OF RESULTS

- Data also available on disc in Surveycraft, TABGEN, SPSS, SYSTAT or ASCII formats.

NEWSPOLL TERMS AND CONDITIONS

A) Professional behaviour and Privacy

NEWSPOLL is a member of the Association of Market and Social Research Organisations and is AS4752 quality accredited. Newspoll adheres to the Code of Professional Behaviour of the Australian Market and Social Research Society and the Market and Social Research Privacy Principles. The Code of Professional Behaviour includes the following key requirements:

1. Confidentiality

Clients' identities will not be revealed to respondents nor to any third party without the client's consent or unless Newspoll becomes legally obliged to do so. Respondents' identities will not be revealed to clients without the respondent's consent and only in cases where the information is to be used for research purposes and the intended use has been explained to respondents.

2. Ownership of information

Results to a research study commissioned by a client become the property of the client. Results to syndicated studies remain the property of NEWSPOLL.

All research proposals, research designs, questionnaires and processing techniques, including systems of weighting, remain the property of NEWSPOLL. All computer table reports provided by NEWSPOLL identify the variables used in the weighting process. Further details, if required, are available at an additional cost. Photocopies of individual questionnaires or a copy of the database, **excluding** respondents' identities, may be made available to a client at the client's expense.

Unless specified otherwise, any hard copy or electronic material provided by a client for the conduct of a project will be retained by Newspoll and stored in a secure location.

3. Publication of results

Clients choosing to release the findings of a NEWSPOLL survey must ensure that the results are represented in an objective and non-misleading fashion.

NEWSPOLL advises that all questions must be objective and not intentionally misleading or attempting to elicit a desired response. NEWSPOLL must be consulted and agree in advance on the form and content of any intended release. NEWSPOLL must be provided with a copy of the proposed release and given 48 hours for its review. Up to two executive hours will be made available for this review process. Additional reviewing time, if required, will be charged at an hourly rate. NEWSPOLL is obliged to take action to correct any misleading statements about the research or its findings. **The NEWSPOLL name may be used only in cases where these conditions have been satisfied.**

B) Conditions of agreement between NEWSPOLL and clients

1. Reporting

Standard reporting format is a computer table report consisting of analysis of each client question by up to two standard panels of demographic discriminators. Reports are available either in electronic (PDF) format, or hard copy (A4 sized, two copies). Extra or non-standard analysis and optional reporting formats are available at additional cost and may require longer reporting time.

2. Conduct of fieldwork

From time to time Newspoll employs the services of associated companies to assist with fieldwork related services. Newspoll reserves the right to do so when required.

3. Costs and confirmation of costs

Costs for a study can be confirmed only after agreement on questionnaire outline or on sighting a draft client questionnaire. Changes to agreed research specifications and/or questionnaire will result in a cost revision. Unless otherwise specified, all quoted costs refer to Australian dollars and reflect current year's rates, effective for the January - December period. Costs are quoted exclusive of GST. For Australian clients, GST will be shown separately on a tax invoice and must be paid for by the client.

4. Omnibus bookings, approvals and late changes

Space on NEWSPOLL's omnibuses is strictly limited to ensure high quality response. Early bookings, at least a week prior to fieldwork, are recommended and clients are advised to finalise and approve questionnaires as early as possible. Final approval of a questionnaire refers to approval, after all agreed changes, to a questionnaire developed or formatted by Newspoll and submitted to a client for review.

Questionnaires approved, or bookings made, after the following deadlines are subject to late surcharges as shown:

	Final Questionnaire Approval Deadline	Late approvals or changes	
Telephone Omnibus			
Fri - Sun	Thurs 11:00am	After 11:00am After 4:00pm	15% of study cost, min \$425 plus GST 20% of study cost plus one question unit cost per page
Mon - Wed or Mon - Thurs	Thurs 5:00pm	After 5:00pm After 1:00pm Fri	15% of study cost, min \$425 plus GST 20% of study cost plus one question unit cost per page
Tues - Thurs	Mon 11:00am	After 11:00am After 4:00pm	15% of study cost, min \$425 plus GST 20% of study cost plus one question unit cost per page
Online Omnibus			
Thurs-Sun	Tues 4:00pm	Questionnaires must be finalised and approved by specified deadline, otherwise they cannot be included in the Online Omnibus and cancellation charges (below) apply. Late provision or changes to visuals may be accommodated up to 1:00pm Wed, subject to late charge of \$600 + GST per visual.	

5. Cancellation or postponement charges

NEWSPOLL reserves the right to charge up to full quoted study cost where a confirmed booking is made and the study is subsequently cancelled or postponed within three working days prior to the commencement of fieldwork or after fieldwork has begun. Studies cancelled or postponed earlier than this are subject to a minimum 10 percent charge if questionnaire development has begun.

6. Invoicing and payment terms

Omnibus studies are invoiced in full at the time of provision of results or for multi-round studies 50 percent will be invoiced at the commencement of the study and 50 percent on provision of results. Custom studies are invoiced 50 percent upon commissioning and 50 percent upon provision of results.

Full payment of invoices is requested within seven days of invoice date. Newspoll reserves the right to impose a late payment surcharge of up to \$1,000 per month for invoices unpaid after 30 days. NEWSPOLL also reserves the right to delay the commencement of any study if there are overdue invoices from previous studies. Repeated late payment of invoices will result in the need for payment in full prior to the commencement of future studies.
