METHODOLOGY

Sample

- Conducted nationally among 1201 respondents aged 18 years and over.
- Respondents were selected via a random sample process which included:
 - a quota being set for each capital city and non-capital city area, and within each of these areas, a quota being set for groups of statistical divisions or subdivisions;
 - random selection of household telephone numbers using random digit dialling (RDD);
 - random selection of an individual in each household by a "last birthday" screening question.

Interviewing

- Conducted by telephone over the period of 16 - 18 October, 2009 by fully trained and personally briefed interviewers.
- To ensure the sample included those people who tend to spend a lot of time away from home, a system of call backs and appointments was incorporated.

Weighting

- To reflect the population distribution, results were post-weighted to Australian Bureau of Statistics data on age, highest level of schooling completed, sex and area.

ISO 20252 - Market, Social and Opinion Research

- This study was carried out in compliance with ISO 20252 - Market, Social and Opinion Research.

NEWSPOLL TERMS AND CONDITIONS

A) Professional behaviour and Privacy

NEWSPOLL is a member of the Association of Market and Social Research Organisations and is ISO20252 quality accredited. Newspoll adheres to the Code of Professional Behaviour of the Australian Market and Social Research Society and the Market and Social Research Privacy Principles. The Code of Professional Behaviour includes the following key requirements:

1. Confidentiality

Clients' identities will not be revealed to respondents nor to any third party without the client's consent or unless Newspoll becomes legally obliged to do so. Respondents' identities will not be revealed to clients without the respondent's consent and only in cases where the information is to be used for research purposes and the intended use has been explained to respondents.

2. Ownership of information and retention of records

Results to a research study commissioned by a client become the property of the client. Results to syndicated studies remain the property of NEWSPOLL.

All research proposals, research designs, questionnaires and processing techniques, including systems of weighting, remain the property of NEWSPOLL. All computer table reports provided by NEWSPOLL identify the variables used in the weighting process. Further details, if required, are available at an additional cost. Photocopies of individual questionnaires or a copy of the database, **excluding** respondents' identities, may be made available to a client at the client's expense.

Unless specified otherwise, any hard copy or electronic material provided by a client for the conduct of a project will be retained by Newspoll and stored in a secure location. Documentation and research results (both hard copy and electronic) associated with projects are kept for a minimum of two years.

3. Publication of results

Clients choosing to release the findings of a NEWSPOLL survey must ensure that the results are represented in an objective and non-misleading fashion.

NEWSPOLL advises that all questions must be objective and not intentionally misleading or attempting to elicit a desired response. NEWSPOLL must be consulted and agree in advance on the form and content of any intended release. NEWSPOLL must be provided with a copy of the proposed release and given 48 hours for its review. Up to two executive hours will be made available for this review process. Additional reviewing time, if required, will be charged at an hourly rate. NEWSPOLL is obliged to take action to correct any misleading statements about the research or its findings. **The NEWSPOLL name may be used only in cases where these conditions have been satisfied.**

B) Conditions of agreement between NEWSPOLL and clients

1. Reporting

Standard reporting comprises computer tables provided in electronic PDF format. For Omnibus studies tables include two standard demographic banners. Optional summary reports if required will be provided electronically in Microsoft Word or PowerPoint. Alternatively two hard copies may be provided for each report produced (A4 sized).

2. Conduct of fieldwork

From time to time Newspoll employs the services of associated companies to assist with fieldwork related services. Newspoll reserves the right to do so when required.

3. Costs and confirmation of costs

Costs for a study can be confirmed only after agreement on questionnaire outline or on sighting a draft client questionnaire. Changes to agreed research specifications and/or questionnaire will result in a cost revision. Unless otherwise specified, all quoted costs refer to Australian dollars and reflect current year's rates, effective for the January - December period. Costs are quoted exclusive of GST. For Australian clients, GST will be shown separately on a tax invoice and must be paid for by the client.

4. Omnibus bookings, approvals and late changes

Space on NEWSPOLL's Omnibuses is strictly limited to ensure high quality response, and early booking is recommended. Final approval of a questionnaire refers to approval, after all agreed changes, to a questionnaire developed or formatted by Newspoll and submitted to a client for review.

Questionnaires approved, or bookings made, after the following deadlines are subject to late surcharges as shown:

Cancellation fees are based on the amount of work completed and costs incurred. They are subject to a minimum 10 percent charge if questionnaire development has begun, up to the full cost of the project if fieldwork or analysis has commenced.

6. Postponement charges

NEWSPOLL reserves the right to charge a fee where a confirmed booking is made and the project is subsequently postponed. Fees are based on the costs incurred as a result of postponement.
