METHODOLOGY

Sample

- Conducted nationally among 2521 respondents aged 18 years and over.
- Respondents were selected via a random sample process which included:
 - a quota being set for each capital city and non-capital city area, and within each of these areas, a quota being set for groups of statistical divisions or subdivisions;
 - random selection of household telephone numbers within each area;
 - random selection of an individual in each household by a "last birthday" screening question.

Interviewing

- Conducted by telephone over the period of 26 October to 11 November 2012 by fully trained and personally briefed interviewers.
- To ensure the sample included those people who tend to spend a lot of time away from home, a system of call backs and appointments was incorporated.

Weighting

- To reflect the population distribution, results were post-weighted and projected to Australian Bureau of Statistics data on age, highest level of schooling completed, sex and area.

ISO 20252 - Market, Social and Opinion Research

- This study was carried out in compliance with ISO 20252 - Market, Social and Opinion Research.

SECTION L - PROG NOTE: ASK ALL RESPONDENTS

L1 The next couple of questions are of a sensitive nature but your honest answers are important to us. Thinking now about voluntary euthanasia (**PRON Youth-an-asia**). If a hopelessly ill patient, experiencing **unrelievable** suffering, with absolutely **no** chance of recovering asks for a lethal dose, should a doctor be allowed to provide a lethal dose, or not? **DO NOT READ**

PROG NOTE:
- **SINGLE RESPONSE**

1	Yes
2	No
98	Refused
99	Don't know

L2 When voting in a general election, if the party or candidate you would most likely vote for (**PROG NOTE INSERT "opposes" FOR CODE 1 IN L1. ELSE INSERT "advocates"**) the legalisation of voluntary euthanasia (**PRON Youth-an-asia**), would you **change your vote**? **DO NOT READ**

PROG NOTE:
- **SINGLE RESPONSE**

1	Yes
2	No
98	Refused
99	Don't know

L3 Thinking now about several public policy issues in Australia. Would you say that to **you personally**, each of the following issues is **very** important, **somewhat** important, **not very** important or **not at all** important? Firstly... **READ SCALE AS NECESSARY**

PROG NOTE:
- **SINGLE RESPONSE PER ROW**
- **RANDOMISE A-H**

		Very important	Somewhat important	Not very important	Not at all important	Refused	Don't know
A	A national high-speed broadband system	1	2	3	4	98	99
B	Whether voluntary euthanasia (PRON Youth-an-asia) is legalised or not	1	2	3	4	98	99
C	A carbon tax or emissions trading scheme	1	2	3	4	98	99
D	A national disability insurance scheme	1	2	3	4	98	99
E	Whether the death penalty is allowed or not	1	2	3	4	98	99
F	Whether same-sex marriage is legalised or not	1	2	3	4	98	99
G	Dealing with asylum seeker boat arrivals	1	2	3	4	98	99
H	Whether abortion is legal or not	1	2	3	4	98	99

SECTION Y- **PROG NOTE: ASK ALL RESPONDENTS**

Y1 The next question may be considered a little sensitive to some, but we would appreciate your co-operation. What is your own religion, or do you not have a religion? **DO NOT READ**

IF NO RELIGION “Could I just check, do you consider yourself simply as of “no religion,” or as spiritual but with **no formal** religion, or agnostic, or atheist?”

IF NECESSARY REASSURE RESPONDENT OF CONFIDENTIALITY AND THAT INFORMATION IS FOR CLASSIFICATION PURPOSES ONLY

PROG NOTE:
- SINGLE RESPONSE

Respondents and weighted respondents

- **RESPONDENTS** - The total number of completed interviews before weighting has been applied. The figure directly below the 'Total' is the number of respondents included in that table. The number of respondents included in any particular column appears at the top of the column.
- **WTD RESP (000's)** - The population estimates represented by the respondents, expressed in thousands. The percentages in the main body of the table are based on these weighted figures.

Questions

- Down the left side of the page is a question description and response frame.

Totals

- Column totals appear across the bottom of the table. These will be greater than 100 percent if there have been multiple responses by individuals.

FORMAT OF RESULTS

- Data files also available in Surveycraft, SPSS, ASCII or Excel formats.

NEWSPOLL TERMS AND CONDITIONS

A) Professional behaviour and Privacy

NEWSPOLL is a member of the Association of Market & Social Research Organisations and is ISO20252 quality accredited. Newspoll adheres to the Code of Professional Behaviour of the Australian Market & Social Research Society and the Market and Social Research Privacy Principles. The Code of Professional Behaviour includes the following key requirements:

1. Confidentiality

Clients' identities will not be revealed to respondents nor to any third party without the client's consent or unless Newspoll becomes legally obliged to do so. Respondents' identities will not be revealed to clients without the respondent's consent and only in cases where the information is to be used for research purposes and the intended use has been explained to respondents.

2. Ownership of information and retention of records

Results to a research study commissioned by a client become the property of the client. Results to syndicated studies remain the property of NEWSPOLL.

All research proposals, research designs, questionnaires and processing techniques, including systems of weighting, remain the property of NEWSPOLL.

Unless specified otherwise, any hard copy or electronic material provided by a client for the conduct of a project will be retained by Newspoll and stored in a secure location. Documentation and research results (both hard copy and electronic) associated with projects are kept for a minimum of two years.

3. Publication of results

Clients choosing to release the findings of a NEWSPOLL survey must ensure that the results are represented in an objective and non-misleading fashion.

NEWSPOLL advises that all questions must be objective and not intentionally misleading or attempting to elicit a desired response. NEWSPOLL must be consulted and agree in advance on the form and content of any intended release. NEWSPOLL must be provided with a copy of the proposed release and given 48 hours for its review. Up to two executive hours will be made available for this review process. Additional reviewing time, if required, will be charged at an hourly rate. NEWSPOLL is obliged to take action to correct any misleading statements about the research or its findings. **The NEWSPOLL name may be used only in cases where these conditions have been satisfied.**

B) Conditions of agreement between NEWSPOLL and clients

1. Reporting

Standard reporting comprises computer tables provided in electronic PDF format. For Omnibus studies tables include two standard demographic banners. Optional summary reports if required will be provided electronically in Microsoft Word or PowerPoint.

2. Conduct of fieldwork

From time to time Newspoll employs the services of associated companies to assist with fieldwork related services. Newspoll reserves the right to do so when required.

3. Costs and confirmation of costs

Costs for a study can be confirmed only after agreement on questionnaire outline or on sighting a draft client questionnaire. Changes to agreed research specifications and/or questionnaire will result in a cost revision. Unless otherwise specified, all quoted costs refer to Australian dollars and reflect current year's rates, effective for the January - December period. Costs are quoted exclusive of GST. For Australian clients, GST will be shown separately on a tax invoice and must be paid for by the client.

4. Omnibus bookings, approvals and late changes

Space on Newspoll's Omnibuses is limited to ensure high quality response. Final approval of a questionnaire refers to approval, after all agreed changes, to a questionnaire developed or formatted by Newspoll and submitted to a client for review. Questionnaires approved, or bookings made, after the following deadlines are subject to late surcharges:

	Final Questionnaire Approval Deadline	Late surcharge	
Telephone Omnibus			
Fri - Sun	Thurs 11:00am	After 11:00am	15% of study cost, min \$450 plus GST
Mon - Wed or Mon - Thurs	Thurs 5:00pm	After 5:00pm	15% of study cost, min \$450 plus GST
Online Omnibus			
Thurs-Sun	Tues 4:00pm	Questionnaires must be finalised and approved by specified deadline, otherwise they cannot be included in the Online Omnibus and cancellation charges apply (see section 5. below)	

5. Cancellation charges

NEWSPOLL reserves the right to charge a fee where a confirmed booking is made and the project is subsequently cancelled. Cancellation fees are based on the amount of work completed and costs incurred. They are subject to a minimum 10% charge if questionnaire development has begun, up to the full cost of the project if fieldwork or analysis has commenced.

6. Postponement charges

NEWSPOLL reserves the right to charge a fee based on any costs incurred where a confirmed booking is made and the project is subsequently postponed.

7. Invoicing and payment terms

Omnibus studies are invoiced in full on delivery of results or for multi-round studies 50% will be invoiced at the commencement of the study and 50% on provision of results. Custom studies are invoiced 50 percent upon commissioning and 50% upon provision of results.

Full payment of invoices is requested within 7 days of invoice date. Newspoll reserves the right to impose a late payment surcharge of up to \$1,000 per month for invoices unpaid after 30 days. NEWSPOLL also reserves the right to delay the commencement of any study if there are overdue invoices from previous studies.

8. Data accuracy

Newspoll recommends the data collection approach it considers to be most appropriate for your objectives and budget.

Telephone is consistently the most accurate method for conducting quantitative research, due to its ability to provide the most representative samples. This is why Newspoll's highly visible political and public opinion polls continue to be conducted by phone. A key strength of online surveys is the ability to use visual aids, such as advertising, packs and logos. It can often, though not always, provide a cost saving when compared to an equivalent phone survey. However these benefits come at the expense of reduced certainty about the representativeness of the sample and therefore the accuracy of any findings.

Our experience suggests that, even after weighting the samples to the same population profile, the results from online panel studies can be quite different from an equivalent random probability phone survey and these differences are not always easy to predict. As a rule online panel surveys should not generally be used where the success of the project depends on accurate measurement of attitudes and behaviour.
